ED (Erectile Dysfunction) is Huge in America & We Can Help With Choices, Options & Solutions...

Studies found on average that about **52 percent of men** experience some form of ED.

Mild and moderate erectile dysfunction affects approximately 10 percent of men per decade of life; i.e., **40 percent of men in their 40s**, 50 percent of men in their 50s, 60 percent of men in their 60s, **70 percent of men in their 70s, etc.**

4romeo – Our men's health direct-to-consumer through telemedicine is fully launched.

We have also developed a landing page and affiliate site for all Medicare Benefits Helpline Members. Currently, 4romeo offers Erectile Dysfunction (ED) treatment plans. They also have plans to add other treatment plans including hair growth and insomnia in the upcoming months.

It has been stated that if an agent has 200 Clients that they can expect to earn about \$2,000 in extra income per month. So 500 Clients could bring in an extra \$5,000 per month and so on... **Remember**, this is one of those products where you will get referrals and word of mouth advertising like no other. **See the Sample Business Card that I personally use for advertising this much needed and wanted product...**
